

Afghans Landmine Survivors' Organization (ALSO)

Request for Quotation (RFQ)

Introduction Request for Quotation

Afghans Landmine Survivors' Organization (ALSO) and Community Center for the Disabled (CCD) are going to develop an online "application" to collect information of persons with disabilities with financial support of French Embassy. The application should be linked to two Websites to store the data for further analysis and use.

The application should be accessible through Play Store and should operate on Android Operating System of smart –phone so that anyone can download and install it on their smart phones for sending their personal data to the Websites. The application will be consist of the following structures:

1. Development of an app to work on Android mobile operation system;
2. Development of a Website with an online database linked with the app to collect and store from the App;
3. Linking the database and app to two other Websites;

ALSO and CCD will collect the data for referring persons with disabilities to service providers of health, education and employment in Kabul and provinces.

So the eligible companies that have experience and skill can apply for this bidding through the given email through the below email. Please provide technical details about the Application and the Website. For example, features, compatibility, type of technology and advantages in comparison with other available options.
