Subject: **Request for Quotation – FFHC**

About Turquoise Mountain

Turquoise Mountain was founded in 2006 by HRH The Prince of Wales and HE Hamid Karzai and has worked in Afghanistan, Myanmar, and the Middle East and elsewhere to revive traditional skills to create jobs, skills and a renewed sense of pride. It has set up the Turquoise Mountain Institute for Arts and Architecture in Kabul, the only internationally accredited vocational institution of its kind in Central Asia, training hundreds of artisans. This Institute sits amongst over a hundred private houses and is surrounded by a community that is served by a clinic and primary school that were established as part of the regeneration of this ancient quarter of Kabul's old city. Turquoise Mountain recognizes the value in a holistic approach that integrates health, education, and livelihoods and which provides opportunities not just to artisans but also to their communities.

The Ferozkoh Family Health Clinic (FFHC) has been a significant element in the restoration of Murad Khani. We now seek to establish the FFHC as a model clinic and extend its influence to the rest of Kabul's old city and beyond.

The FFHC is an urban clinic offering community-oriented primary health care and training in family medicine. It specializes in maternal-child health and community health outreach. Its mission is to develop a model of urban primary healthcare that is sustainable, affordable, accessible, continuous, comprehensive, and integrated with other health services in Kabul. Since 2011 almost 120,000 patients have been treated at the clinic.

Needs and Requirements

Turquoise Mountain, FFHC based in Kabul is looking for a company to supply all below mentioned medicines.

This RFQ is issued in order to find a reputable and reliable supplier who can provide the following medicines for FFHC at a reasonable cost with the following specifications and conditions:

| S/ N | Description of Items (شرح مواد) | | Specification | Strength | Packing (Units/P ack) | Estimated Unit Cost قيمت في عدد |
