Assignment Title: Baseline Assessment and Preparation of the Impact Assessment Design for EZ-Kar

Consultancy to cover: Kabul, Afghanistan

1. Background

With decreases in economic growth, increase in un/ under employment and poverty rates, a rapid influx of refugee returnees (predominantly from Pakistan but also from Iran and other countries), and increasing number of internally displaced populations within the country due to conflicts and/or natural disasters, between 2015 and 2018, the Government of the Islamic Republic of Afghanistan (GoIRA) and the international community together formed the Displacement Response Executive Committee (DiREC) that then prepared a framework for a whole-of-Government and coordinated donor response. The Eshteghal Zaiee – Karmondena Project (or “EZ-Kar), literally translating to job creating/ finding in Dari and Pashto, the two official languages of the country, was designed as part of this response, and addresses a variety of areas from immediate relief to medium term employment to longer term public infrastructure and economic generation.

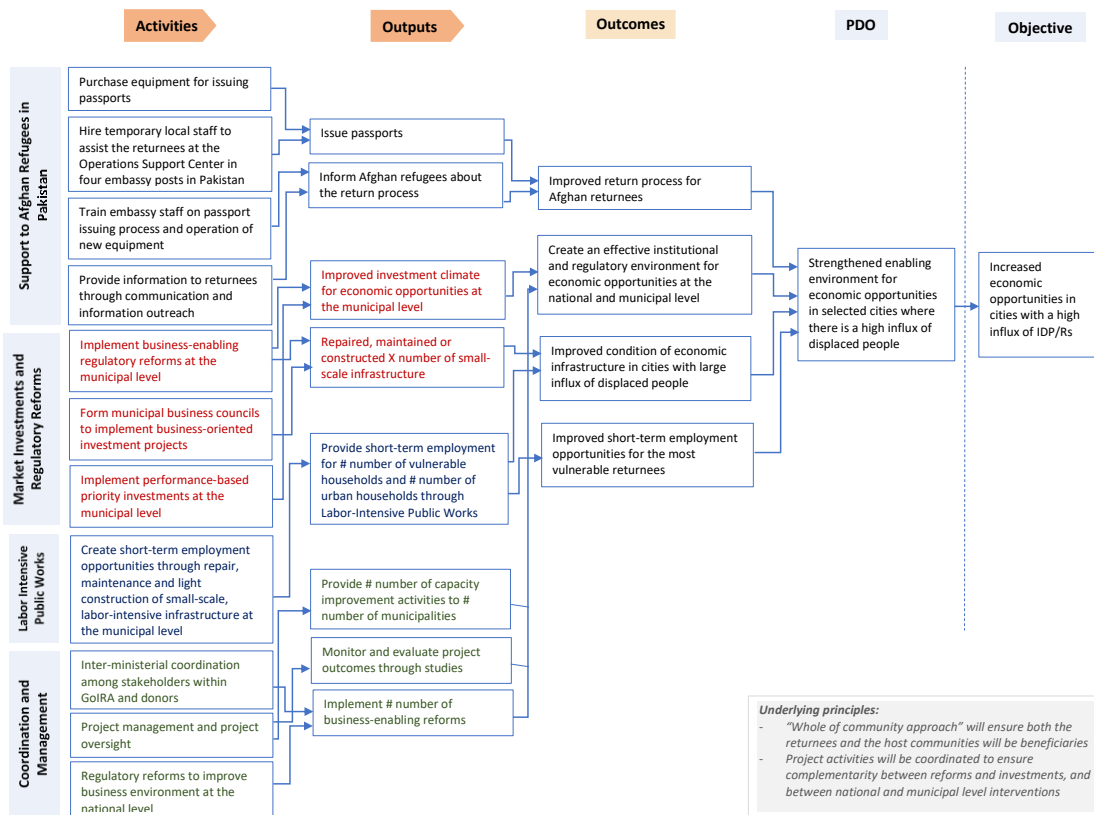

The Project Development Objective (PDO) for this project is **to strengthen the enabling environment for economic opportunities in cities where there is a high influx of displaced people** including both returnees and IDPs. The EZ-Kar financing agreements were signed between the Government and the World Bank in February 2019, for a project duration of five years, 2019 to 2023. The Project targets Afghan refugees living in Pakistan and in 13 provincial capital cities with the highest influx of the recent

returnees. The cities include: Kabul city (Kabul province), Jalalabad (Nangarhar province), Kandahar city (Kandahar province), Herat city (Herat province), Puli Khumri (Baghlan province), Maimana (Faryab province), Ferozkoh (Ghor province), Khost Matun (Khost province), Asadabad (Kunar province), Kunduz city (Kunduz province), Mehtarlam (Laghman province), Taloqan (Takhar province) and Parun (Nuristan province).

The project has five components executed by Implementing Agencies as shown below:

- Component 1: Regional and National integration of displaced persons by the Ministry of Foreign Affairs (MoFA), primarily issuing passports to Afghan refugees in Pakistan,
- Component 2: Short term employment opportunities, reforms, market enabling infrastructure, and municipal level regulatory reforms in 12 cities by the Independent Directorate of Local Governance (IDLG),
- Component 3: Priority Investments in 4 Provincial Capital Cities by the IDLG,
- Component 4: Market enabling infrastructure and regulatory reforms for Kabul city by the Kabul Municipality, and
- Component 5: Project coordination, red carpet and national level regulatory reform by the Ministry of Economy (MoEc)

The Project’s Theory of Change is as shown below:

2. Objectives:

The project's development objective is to strengthen the enabling environment for economic opportunities in cities where there is a high influx of displaced people. This will be pursued by increasing the returnees' access to civil documents, providing short-term employment opportunities, improving market enabling infrastructure, and supporting investor-friendly regulatory reforms.

The Project targets Afghan refugees living in Pakistan and in 13 provincial capital cities with the highest influx of the recent returnees. The cities include: Kabul, Jalalabad, Kandahar, Herat, Puli Khumri, Maimana, Ferozkoh, Khost, Asadabad, Kunduz, Mehtarlam, Taloqan and Parun.
