Executive Compensation Certification- FAR 52.204-10 requires DAI, as prime contractor of U.S. federal government contracts, to report compensation levels of the five most highly compensated subcontractor executives to the Federal Funding Accountability and Transparency Act Sub-Award Report System (FSRS)
3. Executive Order on Terrorism Financing- The Contractor is reminded that U.S. Executive Orders (including E.O 13224) and U.S. law prohibits transactions with, and the provision of resources and support to, individuals and organizations associated with terrorism. FAR 25.701 prohibits agencies and their contractors from acquiring any supplies or services from individuals or organization, if any proclamation, Executive Order, Office of Foreign Assets Control (OFAC) regulations, or statute administered by OFAC would prohibit such a transaction. Accordingly, the Contracting Officer must check the US Department of the Treasury's OFAC List to ensure that the names of the Contractor and proposed subcontractors (and individuals from those organizations who have been made known to them), are not on the list. Mandatory FAR clause 52.225-13 Restrictions on Certain Foreign Purchases is included by reference in Section I.1 of this contract. By accepting this contract, the Contractor acknowledges and agrees that it is aware of the list as part of its compliance with the requirements of that clause. 4. Subcontracting Requirements (January 2012) – (a) Applicability: This section limits the number of tiers of sub-contracts to one tiers below the Vendor. The Vendor must not allow lower-tier subcontracts without the express written approval of DAI. The Vendor shall include this clause in all subcontracts, and shall require subcontractors to include this clause in all lower-tier subcontracts. The Vendor shall be responsible for compliance with this clause by all subcontracts and lower-tier subcontractors.

7. You must select the legal structure of your organization from the pull down menu. To assist you in selecting the appropriate structure that best represents your organization, a brief description of the various types follows:

- **Corporation** – A firm that meets certain legal requirements to be chartered by the state/province in which it is headquartered by the filing of articles of incorporation. A corporation is considered by law to be an entity separate and distinct from its owners. It can be taxed; it can be sued; it can enter into contractual agreements.
- **Government** - central, province/state, district, municipal and other U.S. or local government entities. Includes universities, schools and vocational centers owned and operated by the government.
- **Limited Liability Company (LLC)** - This is a type of business ownership combining several features of corporation and partnership structures. It is designed to provide the limited liability features of a corporation and the tax efficiencies and operational flexibility of a partnership. Its owners have limited personal liability for the LLC's debts and obligations, similar to the status of shareholders in a corporation. If your firm is an LLC, this will be noted on the organizations registration and licensing documents.
- **Non-profit** - An entity which exists for charitable reasons and is not conducted or maintained for the purpose of making a profit. Any money earned must be retained by the organization, and used for its own expenses, operations, and programs. Most organizations which are registered in the host country as a non-governmental organization (NGO) rather than as a commercial business are non-profit entities.

Community based organizations, trade associations, community development councils, and similar entities which are not organized as a profit making organization should select this status, even if your organization is not registered formally in country as an NGO.

- **Partnership**- a legal form of operation in which two or more individuals carry on a continuing business for profit as co-owners. The profits and losses are shared proportionally.
 - **Proprietorship**-These firms are owned by one person, usually the individual who has day-to-day responsibility for running the business. Sole proprietors own all the assets of the business and the profits generated by it.
