UNITED STATES INSTITUTE OF PEACE

Covered Telecommunications Equipment or Services Certification

Definitions
As used in this Certification, "covered telecommunications equipment or services" is fully defined in the Federal Acquisition Regulation, FAR 52.204-25.

Representation
The Offeror/Contractor certifies that it will not provide covered telecommunications equipment or services to USIP in the performance of the contract, subcontract or other contractual instrument resulting from this funding opportunity.

After conducting a reasonable inquiry, for purposes of this representation, the Offeror/Contractor represents that it does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services.

If Offeror/Contractor is not able to certify representations above, Offeror/Contractor must mark below and provide a disclosure with a full description of the covered telecommunications equipment and services and any factors relevant to determining if such use would be permissible.

☐ Offeror/Contractor is not able to certify representations above and disclosures are attachment to this certification form.
