Attestation of NDAA 889 Compliance

We have conducted a review of the devices, components and/or services we are offering to Management Sciences for Health (MSH) in response to this RFQ/RFP and have determined that none of them contain or rely on “covered telecommunications equipment or services” under the John S. McCain National Defense Authorization Act, Section 889 (or the interim rule.)

Prohibited telecommunications and security equipment and services include those designed, developed, manufactured, or supplied by entities listed below or persons affiliated with their ownership or control.

1. Huawei Technologies Company
2. Dahua Technology Company
3. Hangzhou Hikvision Digital Technology Company
4. Hytera Communication Corporation
5. ZTE Corporation
6. Any subsidiary or affiliate of the above entities

Company Name: _____

NDAA Section 889 Background and Requirements

Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. No. 115-232) places restrictions on U.S. Government contractors’ ability to contract with or use certain Chinese telecommunications equipment or services based on U.S. national security concerns.

Covered telecommunications equipment or services are defined as all telecommunications equipment or services produced and provided by Huawei Technologies Company or ZTE Corporation, and video surveillance and telecommunications equipment or services produced and provided by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company, or any subsidiaries or affiliates of those entities.

This prohibition applies to all U.S. Government contractors, domestic and international, even if that company is not specifically selling telecommunications equipment or services to the U.S. Government. As a prime contractor, Management Sciences for Health (MSH) must conduct a reasonable inquiry of the suppliers that provide telecommunications equipment and services to MSH, regardless of whether that equipment or service is used by MSH as part of its work for the U.S. Government.

If MSH provides any telecommunications equipment or services as a subcontractor to a U.S. Government contractor, MSH may be asked whether any of that equipment or service is prohibited under Section 889. Responding to these inquiries requires MSH to inquire as to the source of supply of telecommunications equipment and services provided to MSH by its subcontractors, suppliers, and vendors.

No commodities or services may be supplied that are manufactured or assembled in, shipped from, transported through, or otherwise involving any of the following countries: **Burma (Myanmar), Cuba, Iran, North Korea, (North) Sudan, Syria.**

Please see annex 1 for the full list of non-compliant subsidiaries.
